

Vinicius Figueira Martins

Business Analyst | Digital Transformation | Power Platform | AI Agents

Rio de Janeiro, Brazil | English / Portuguese / Spanish

vinicius.v.martins@shell.com

PROFILE

Business Analyst and Information Management professional experienced in translating business challenges into practical digital solutions. Strong knowledge of Microsoft 365, Power Platform, SharePoint, automation, and AI Agents, combining business analysis with hands-on technical expertise. At Shell Brazil, I work with stakeholders to understand needs, gather and document requirements, map processes and data flows, assess solution options, and facilitate communication between business users and developers. My experience covers local projects, compliance, digital transformation, and AI-enabled solutions.

CORE STRENGTHS

- Business analysis, requirements elicitation, documentation, and traceability
- Process mapping, gap analysis, data flows, risks, and business impact
- Digital solutions using SharePoint, Power Apps, Power Automate, Power BI, Copilot, AI Builder, and AI Agents
- Process improvement, automation, solution design, and user adoption
- Stakeholder engagement, workshop facilitation, and business-technology translation
- Experience supporting local business areas and collaborating with cross-functional and global teams
- Agile ways of working, Kanban, testing support, application support, and information governance

SELECTED IMPACT

- Delivered measurable business impact for NOV assets in Brazil, including an AI Builder pioneer initiative with US\$6MM NPV.
- Contributed as a Business Analyst to AI Agent initiatives, connecting business needs with technical delivery and supporting use cases and requirements.
- Performed business analysis for Petrobras data extraction and automated BDO routing to the appropriate Shell SharePoint environments, facilitating communication between business users and developers.
- Mapped document-processing requirements, rules, and exceptions for CEP-FME automation, while also delivering SharePoint and workflow solutions. Recognized with the KYI “IM Rising Stars” Award (2024).
- Recognized as an early adopter of emerging technologies at Shell and a Copilot Champion, contributing to the assessment and exploration of AI Agent capabilities before they evolved into formal business initiatives.

PROFESSIONAL EXPERIENCE

Shell plc | IM Advisor | Dec 2022 – Present

- Partner with stakeholders to identify business problems, value drivers, functional needs, process constraints, and improvement opportunities.
- Gather and document requirements, map current and future processes, analyze data flows, and assess alignment between business needs and technology capabilities.
- Translate requirements into practical Microsoft 365, Power Platform, SharePoint, automation, and AI-enabled solutions, considering feasibility, risks, usability, and business impact.

- Act as a bridge between business users and developers, clarifying use cases, business rules, data needs, exceptions, and expected outcomes throughout delivery.
- Facilitate stakeholder discussions and support solution design, testing, implementation, change, digital adoption, information governance, and compliance.

Tata Consultancy Services | Infrastructure Support Analyst (Client: Shell) | Aug 2019 – Sep 2022

- Provided end-user and infrastructure support, handling hardware, software, service tickets, SLA controls, remote support, and meeting-room audio/video support.
- Led daily work tracking using Kanban and supported operational continuity across user support activities.

Tata Consultancy Services | BPO Analyst (Client: Petrobras) | Feb 2019 – Aug 2019

- Collected, validated, and processed petroleum-system model data from multiple technical databases, supporting data extraction, technical documentation, reports, charts, and routine Python automation.

Earlier Experience | Atos, Capgemini, Tata Consultancy Services | 2011 – 2019

- Built a broad foundation in IT support, operational reporting, service management, data handling, logistics, staff coordination, and process discipline across complex environments.

EDUCATION

- MBA in Artificial Intelligence Applied to Business – FGV (Nov 2025–Jan 2027, in progress)
- B.Sc. in Computer Science / Information Technology – Universidade Unigranrio (2017–2021)
- B.Sc. in Biological Sciences – Universidade Unigranrio (2008–2014)
- English studies – Cultura Inglesa (2007–2014)
- Spanish studies – ICLE (in progress)

TOOLS & CERTIFICATIONS

- CBAP training provided by the International Institute of Business Analysis (IIBA)
- Automation Anywhere Advanced RPA Professional v11.0 (2021)
- Microsoft 365, SharePoint, Power Apps, Power Automate, Power BI, Copilot, AI Builder, and AI Agents
- Working knowledge of Agile, Kanban, ServiceNow, ITSM/ITIL, and ASSAI Cloud
